STATEMENT OF Captain Francis J. GAJEWSKI 060577/7333 USMC

I have been the supervisor of Private First Class OSWALD for the past twelve months. During the period he has worked directly under me in the operations center, here in MACS-1. He has worked on the plotting boards and has done other routine jobs in the operations center. As a matter of fact he has done very good work for me. I would desire to have him work for me at any time.

During operation STRONGBACK he performed duties as squadron messmen. His work was highly satisfactory. He did ask me a couple of times if I would help to get him off mess duty. However there was nothing I could do for him.

While I have known him he has given me the impression that he minds his bussiness and does his job well. If I were to rate him for conduct and proficiency at this time I would award him 3.9 for proficiency and a 4.0 for conduct.

Francis J. Gajewski
